The Company maintains and continuously improves its Environmental Policy and management systems in accordance with ISO9001, ISO14001, ISO45001, ISO17020 and Legionella Control Association.

This policy is based on the fundamental principles of measuring and planning for continual improvement and is the governing document for setting improvement targets. Environmental objectives will be designed to improve customer satisfaction, environmental performance, technical innovation and safe working practices and will be implemented and reviewed. Objectives are set to reduce the Company's most significant environmental impacts.

This policy is available by request via the company website and is reviewed on an annual basis by the company's senior management team.

The Company monitors and continually reviews the suitability of the integrated management system, procedures, technological advances and working practices in conjunction with demands and expectations from our Customers, Employees and any person(s) working under the Company's control, to ensure they are appropriate to the nature, scale and impacts of the Company's activities, products, services and risks.

The company is aware of the effects that its operations have on the environment, and is committed to reducing this as far as possible. The impacts and effects of climate change have the ability to significantly affect the operation of the company.

SMS Environmental is committed to:

- Meeting or exceeding environmental requirements as required by our Customers, Employees and parties working on behalf of SMS Environmental.
- Complying with all applicable environmental legislation and with any other requirements to which the Company subscribes, including those that relate to its environmental aspects.
- Ensuring that through action or inaction, any work carried out will not have a negative impact on the environment.
- Maintaining good business and profitable relationships with our clients, subcontractors, suppliers and other interested parties.
- Implement environmental awareness courses for employees, so that they understand the impacts their role has on the environment.
- Maintaining awareness of all employees and person(s) working under the control of SMS Environmental, so they can identify and fulfil contractual, legislative and company Quality and Environment responsibilities.
- Continually considering the Company's environmental impacts as an essential element when evaluating new projects, products, and operations. The Company also has a commitment to ensure appropriate control measures are applied to its most significant impacts.
- Continually monitor and review the company's CO₂ emissions for energy and fuel consumption, implement annual objectives with a view to reduce the company's Carbon Footprint.
- The prevention of pollution and appropriate disposal of any hazardous and non-hazardous waste that may be produced from services provided by the Company.
- Recycling waste and using recyclable products to carry out its services.
- Communicating this policy and the results of our activities, to members of the Company, person(s) working under the Company's control and any other interested parties as appropriate.

This Policy is supported by the Company's Quality Policy and Health & Safety Policy Statement, which is also available on the Company's website and the Company's Integrated Management System (IMS) (Quality, Environmental and Health & Safety) Overview document, detailing roles and responsibilities.
